Background to the NGV Network

- Energy and Utility Skills secured funding from the UKCES – the UK Commission for employment and skills for the infrastructure costs for setting up employer networks
- Through our market testing we identified that there was a need in the UK to set up a Network of employers to focus on developing the NGV market:
 - Fossil and renewable gas
 - CNG and LNG
- We have been working closely over the past year to bring employers together to form the NGV Network

Progress

- 3 Network meetings held
- Market Review Published in December 2013
- More than 100 people now signed up with the network
- Terms of Reference have been agreed
- 3 Sub Groups:
 - Technical and Standards
 - Communications and Marketing
 - Government Relations and Lobbying

UK Market Review

The Role of Natural Gas in Road Transport

December 2013

Purpose

- Advice to Government
- Lobby for policy changes
- Support standards and training
- Facilitate NGV market Growth
- Promote members to help them grow
- Enable collaboration to create a vibrant NGV Market

Next Steps

- We intend to work with GDNs/Energy Networks Association, Low CVP, EUA, IGEM, RHA, FTA, Cenex, REA, ADBA, etc in order to maintain, grow & sustain the NGV Network
- Have a successful NGV Day!
